

Dear 2020 Science and Engineering Expo Participants,

The University of Cincinnati has chosen to cancel on-campus, in-person events with more than 150 attendees, effective immediately. Due to this, the 2020 Science and Engineering Expo on Saturday, March 14<sup>th</sup>, 2020 has been postponed. The Ohio Academy of Science and the University of Cincinnati are exploring alternative dates and hosting options.

More information will be forthcoming.

While State Science Day has not been cancelled, contingency plans are being made in the anticipation of a cancellation or postponement. The Ohio Academy of Science will support any decision that is made by The Ohio State University.

Thank you,
